**Fig. 1: RFID Tag (a), iVIZION® Cash Box (b) (P/N 272590)**

## Parts are Parts RFID Tag, iVIZION® Cash Box (P/N 272590)

The JCM iVIZION Banknote Acceptor includes **Intelligent Cash Box (ICB) System** support. iVIZION Units use Radio Frequency Identification (RFID) to transfer ICB data from the iVIZION Transport to the RFID Tag (Fig. 1 a) in the iVIZION Cash Box (Fig. 1 b). The RFID Tag performs as a memory chip, storing information about banknote acceptance and iVIZION unit performance.

**Note:** The RFID Tag is a passive device and is only active in close proximity to the iVIZION transmitter/receiver.
