

EXPANDED REVENUE OPPORTUNITIES

- BLE mobile wallet connectivity
- Multi-currency acceptance
- Real-time marketing at the slot, table, or kiosk

INCREASED EFFICIENCY

- Real-time peripheral performance data
- Proactive alerts for drops, e-drops, and fills
- Remote diagnostics and firmware download scheduler
- Event timestamps provide metrics on staff efficiency

ENHANCED SECURITY

- Dispute resolution with high resolution banknote/TITO images
- Suspicious activity alerts and tracking
- Secure APIs provide access to FUZION data for casino system use

CASH MANAGEMENT

- Real-time asset monitoring and tracking
- Tracking of all cash by denomination and location
- Improve cash buy accuracy with cash forecast feature

IMAGINE A WORLD where the existing devices across your gaming floor can be utilized in new ways to unlock greater value for you and your players. That is the game-changing technology called FUZION®. When you connect the FUZION system to JCM's iVIZION® or UBA® Pro bill validator and GEN5® ticket printer, every machine on your slot floor has the potential to deliver a suite of player-focused, revenue-driving features.

Watch our
Product Demo

FUZION becomes the highway to enable new services across a gaming floor, regardless of machine manufacturer or CMS provider. Whether it's using FUZION to inform operational decisions, protect your casino, or offer new features to your players, FUZION technology is the ultimate systems solution to bring the future to your casino today.

FUZION[®] PERIPHERAL MANAGEMENT

- Real-time connection to iVIZION and GEN5
- Firmware download scheduling
- Time metrics for every event in FUZION

iCB[®]

- Intelligent electronic drop management
- Streamline drop collection process
- Increase count team efficiency
- Automated daily reports

iPROMO[™]

- CMS-powered promotional ticketing
- Highly customized direct real-time marketing
- Birthday, anniversary, and special event marketing
- Customized W-2G tax form
- Cashless solution using TITO backend

iTITO[®]

- Virtual TITO technology to enable cashless transactions
- Integration with any kiosk provider
- System and machine agnostic
- No need for antiquated wagering accounts

PromoNet[®] promotional couponing

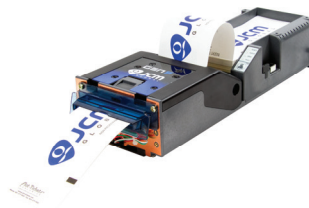

- Stand-alone promotional ticketing
- Behavioral-based promotions to active players
- Influence play duration and spend
- Target carded and uncarded players

The FUZION[®] system provides cash management data from across the casino. Backed by data, each department can make process improvements with FUZION technology: slot management will improve BV performance with dashboard monitoring, count/drop will reduce E-drops with cashbox fullness reporting, security and surveillance will receive AML alerts with transaction dates and times. FUZION gives you intelligence, security, and interconnected transactions no other supplier can provide.

- Contact Image Sensor (CIS) technology
- Fastest note-to-note processing speed
- Industry's highest acceptance rate

- Dynamic graphics printing on the fly
- Print system-generated promotions and tax forms
- Compatible with GEN2U™ harnessing
- Jam prevention technology

UNIVERSAL BILL ACCEPTOR

- Fast note-to-note processing speed
- 2 or 4 way barcode reader
- Centering mechanism
- Most FUZION features supported

- Multiple ports: SAS, USB, Network, Serial, Debug, Card Reader
- Built-in CPU and memory

- Uses Bluetooth Low Energy (BLE) supported by most mobile devices
- 2D barcode pairing is intuitive for users
- Easy installation
- Integrated for use with Global

GENERAL SPECIFICATION

HARDWARE:

FUZION SERVER

- CPU: 64-bit Server Grade 8+ Cores @ 3.4GHz or greater
- RAM: 64GB
- Hard Drive: 2TB or greater
- Network: Two Network Interfaces @ 1Gbps or greater

FUZION DATABASE SERVER

- CPU: 64-bit Server Grade 8+ Cores @ 3.4GHz or greater
- RAM: 64GB
- Hard Drive: 500GB or greater
- Network: Two Network Interfaces @ 1Gbps or greater

FUZION REMOTE ACCESS

- Any computer that can support newer Operating Systems such as Windows 7/10/Server 2012/Server 2016.

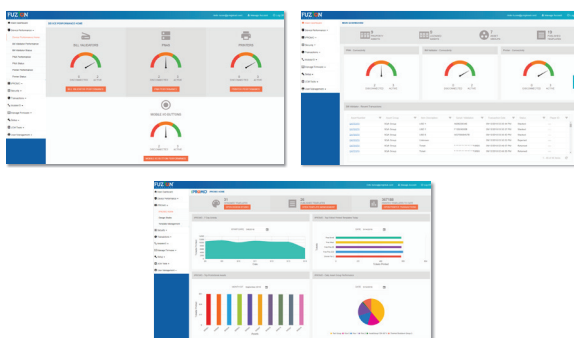

NETWORK REQUIREMENTS

- High speed network with at least 100 mbps bandwidth speeds

EGM REQUIREMENTS

- iVIZION or UBA Pro bill validator
- GEN5 thermal printer

SOFTWARE:

Dynamic dashboards monitor cash box fullness, printer paper levels, peripheral health, and more.

FUZION SERVER

- Microsoft Windows Server 2012 R2 or later
- Microsoft Internet Information Services
- Microsoft .NET Framework 4.5

FUZION DATABASE SERVER

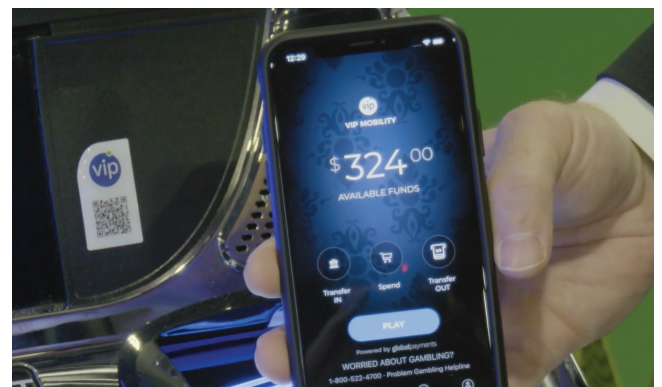

- Microsoft Windows Server 2012 R2 or later
- Microsoft SQL Server 2012 or later

FUZION REMOTE ACCESS

- Any newer Operating Systems such as Windows 7/10/Server 2012/Server 2016. Latest version of Chrome/Edge/Firefox.

FUZION allows EGMs to redeem 2D barcodes through the iVIZION bill validator.

JCM's cashless partnerships give players more transaction options.
