## Parts are Parts

Figure 1 iVIZION® Rear Harness Connector w/ Frame Ground Plate

Part No.   701-000222R

Description: Kit, Hardware iVIZION® Harness

Usage: For optimal performance of the iVIZION® Banknote Acceptor Unit, the iVIZION Transport MUST be properly grounded. The Kit, Hardware iVIZION Harness includes all items needed to ground the iVIZION Transport. Installing the Frame Ground Plate (**Figure 1** b) over the top of the Rear Harness Connector (**Figure 1** a) provides a solid ground connection between the iVIZION Transport and the iVIZION Frame.

Note: The iVIZION Frame MUST be attached to an earth ground.

The Kit components include:

Part Number	Component
151784	Frame Ground Plate
149426	Nut, M2.6 nylon
186-260012RA	Screw, 2.6x12mm
045969	Screw 2.6x10mm
148610	Floating collar (2 each)

The Latest JCM Software Listing (shown above) identifies specific software versions that have been released to OEMs. **It is the responsibility of the OEM to obtain all required approvals from Gaming Regulators and Jurisdictional Authorities necessary for use of approved software versions.** Contact the Game or Kiosk Manufacturer (OEM) for information on specific software releases approved for use within your gaming jurisdiction.

JCM Global recommends using the latest version for maximum acceptance, security, and performance.

JCM eLearning Offerings

JCM offers the following Training Options to help keep your JCM Products performing within factory specifications:

Online Training
For those who prefer self-study, Online Training is available 24/7. Training can be completed as your schedule permits.
A Certificate of Completion is provided upon course completion.

Virtual Training
Instructor-led events for all JCM products are also available. Full interaction between attendees and the Instructor meets the needs of your team.
Contact JCM Training at training@jcmglobal.com for more information.

FREE JCM TRAINING AVAILABLE 24/7

Technicians need training, but is time or class availability a problem? JCM Online Training offers classes to meet your schedule and your needs. JCM Online Training Programs feature the same content as JCM On-site Training with the added convenience of flexible scheduling. Contact training@jcmglobal.com for more information or to register for classes.

Technical Bulletin 202409 Sept 2024

Technical Tip

Question: How is the Frame Ground Plate installed on the JCM iVIZION® Harness bracket?

Answer: To perform this three-step procedure:

1. Install the Harness into the Rear Mounting Bracket using the Floating Collars (**Figure 2 b/e**) on two (2) screws - 1 M2x6x12mm (longer) screw (**Figure 2 a**) and 1 M2x6x10mm (shorter) screw (**Figure 2 d**).

   Note: The M2x6x12mm (longer) screw (**Figure 2 a**) must be installed in the Upper Mount of the Harness (**Figure 2 c**), with the M2x6x10mm (shorter) screw (**Figure 2 d**) installed on the Lower (Bottom) Mount (**Figure 2 f**).

2. Position the Frame Ground Plate over the Rear Harness Bracket (**Figure 2 g**).

3. Slide the Ground Plate onto the protruding Upper Screw, and secure it with the Nylon Nut (**Figure 2 h**).

   Note: Ensure when the iVIZION Transport is installed there is slight movement of the Frame Ground when the Top Screw on the Transport makes contact with the Frame Ground Plate.
Contact your local JCM Sales Representative at (702) 651-0000 for additional information on the iVIZION Banknote Acceptor Unit.

For additional information on JCM Products, visit the JCM Global website at www.jcmglobal.com, or contact your local JCM Sales Representative at (702) 651-0000.
