

MRX™ WITH VERTICAL BEZEL

MRX™
Modular Banknote Recycler Family

Ideal for Gaming Tables

Vertical banknote insertion enables secure and transparent cash transactions for dealers at table games.

Space-Saving Design

The design enables space-saving, compact integration at table games.

High Reliability & Security

The MRX™ provides reliable and secure transaction verification, with real-time transmission for the Casino Management System ensuring transparent and secure traceability for the operator.

Flexible Transaction Handling

Flexible handling is provided by accepting single banknotes, bundled notes, and TITO tickets.

Future-Proof Solution

With its modular design and optional Full Image Scan (Contact Image Sensor Technology), the MRX™ offers flexible adaptation to a wide range of requirements and is therefore future-proof.

OPTIMIZING CASH ACCEPTANCE WITH THE JCM MRX™ AND VERTICAL BEZEL DESIGN

Optimized for Table Games

The MRX™ enables secure and transparent cash transactions at table games. Vertical banknote insertion, real-time connectivity to the Casino Management System, and the acceptance of single banknotes, bundles, and TITO tickets deliver maximum flexibility. Its compact, modular design allows for seamless, space-efficient integration into gaming tables and flexible adaptation to varying requirements.
